

Maths- KS4 Curriculum Overview

Overview	KS4 Maths
	<p>KS4 Maths at The Bridge is taught in mixed year groups. Students attend for different lengths of time. We offer a personalised curriculum for each student that they complete at their own pace.</p> <ul style="list-style-type: none">· The maths content is divided into 7 steps, from basic numeracy to GCSE Higher.· Students are assigned to a step after their baseline assessments. Students' complete workbooks for their step with additional topic practice if required. When they are ready they move onto the next step.· The curriculum utilises the White Rose mastery approach and covers numerical, geometric, proportional and algebraic reasoning and representations.

	· We also aim to develop students' reflection and assessment skills
